MATT COLOR

Matt finish bathroom furniture, taps and accessories are here to stay! Their velvet finish provides a modern elegant feeling and creates an interesting contrast with glossy bathroom pieces.

Bemis moulded wood toilet seats in light or dark matt finish provide endless possibilities. A colour for every need.

Made from high-quality wood materials, our toilet seats are expertly crafted to provide long-lasting performance and comfort.

Did you know...

Bemis moulded wood toilet seats are made from post-industrial wood waste recycled back into toilet seats. The Bemis Matt colour range is certified with the FSC label - 100% wood from well-managed forests.

Bemis moulded wood seats are compression moulded at high temperature and with extreme pressure creating a high-density wood material. Due to this process the density of the material is so high that even after 24hr water submersion the material shows less than 5% weight gain.
